

## LABEL TEMPLATE FOR PREFABRICATED SOAP BOXES

This template is used for prefabricated soap boxes. It includes business name on top side panel, product name on back panel, and ingredients on the bottom side panel. It is meant to wrap on three-sides, leaving the front cut-out panel free. The border is a cutting line so there will be no border on the finished product. If you choose to use a border, just change the border style and color.

The image displays three identical label templates for soap boxes, arranged horizontally. Each template is enclosed in a dashed grey border. At the top of each panel, the text "Company Name" is written in purple, with "Company Address" and "Phone and/or Email & Web Address" stacked below it in black. In the center of each panel is a purple oval containing the text "Product Name" in purple, "Product Type" in black, and "Weight" in black. At the bottom of each panel, the text "INCI Ingredients: Enter your soap bar ingredients here." is written in black.

**Company Name**  
Company Address  
Phone and/or Email & Web Address

**Product Name**  
Product Type  
Weight

**INCI Ingredients:** Enter your soap bar ingredients here.
